The applicant proposes to capture and restrain 6 adult Emperor penguins for 30 minutes while a 260 gram satellite transmitter is glued to the feathers. The transmitters expected to remain attached for three months before shedding. Twenty Emperor penguins will be captured and held for twenty minutes. During captivity stomach samples will be obtained by stomach lavage. These procedures are the only means of determining diet preferences, diving behavior and distribution patterns of individual birds in the Ross Sea. None of this information is known about Emperor penguins occurring in the Ross Sea during the winter.

Location: Ross Sea pack ice. Access is via the R/V Nathaniel B. Palmer.

Dates: May 1, 1998 to August 1, 1998.

Permit Application: 99-002

2. Applicant: William R. Fraser, Department of Biology, Montana State University, Bozeman, Montana 59717.

Activity for Which Permit is Requested: Taking, and Import Into the US

The applicant, as a participant in the Long-Term Ecological Research Program (LTER), is seeking to understand the factors that control the abundance and distribution of seabirds within and between seasons in the LTER study region. Part of this research encompasses understanding seasonal variability in the diets of the region's most common seabirds, of which the early winter period still remains of the least known and one of the most important from an ecological perspective. Research on seabirds in general suggests that winter feeding conditions may determine the survival of annual cohorts and breeding adults, and adult breeding condition in spring, in effect, some of the key variables that influence long-term demography.

The applicant proposes to capture up to 100 Adelie penguins, 100 Chinstrap penguins and 50 Emperor penguins in order to weigh, measure and obtain stomach contents through stomach lavage. The applicant also proposes to kill up to 75 Snow Petrels, 50 Southern Fulmars and 75 Antarctic Petrels in order to obtain measurements, weights and study stomach contents. These seabids will then be imported into the U.S. for subsequent distribution to museums and teaching collections at various institutions, thus ensuring the full use of these specimens.

Location: Bellingshausen Sea, vicinity of Marguerite Bay. Access is via the R/V Lawrence M. Gould.

Dates: May 1, 1998 to September 1, 1998.

Nadene G. Kennedy,

Permit Officer, Office of Polar Programs. [FR Doc. 98–5611 Filed 3–4–98; 8:45 am] BILLING CODE 7555–01–M

NATIONAL SCIENCE FOUNDATION

Special Emphasis Panel In Biological Sciences; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92– 463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Biological Sciences (#1754).

Date & Time: March 26–27, 1998 at 8:30 am to 5:00 pm.

Location: Room 370, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

Type of Meeting: Closed.

Contact Person: Dr. James T. Callahan, Program Director, National Science Foundation, 4201 Wilson Blvd., Room 615, Arlington, Virginia 22230, (703) 306–1469.

Purpose of Meeting: To provide advice and recommendations concerning research proposals submitted to NSF for financial support.

Agenda: To review and evaluate research proposals, submitted to being considered by the Research Collections in Systematics and Ecology Programs as part of the selection process for awards.

Reasons for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals.

These matters are exempt under 5 U.S.C. 552b (c), (4) and (6) of Government in the Sunshine Act.

Dated: March 2, 1998.

M. Rebecca Winkler,

Committee Management Officer. [FR Doc. 98–5745 Filed 3–4–98; 8:45 am] BILLING CODE 7555–01–M

NATIONAL SCIENCE FOUNDATION

Earth Sciences Proposal Review Panel; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92– 463, as amended), the National Science Foundation announces the following meeting.

Name: Earth Sciences Proposal Review Panel (1569).

Date and Time: March 25, 1998; 8:30 a.m. to 5:00 p.m.

Place: National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230, Room 770. Type of Meeting: Closed.

Contact Person: Dr. Leonard E. Johnson, Program Director, Continental Dynamics Program, Division of Earth Sciences, Room 785, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230; Telephone: (703) 306–1559.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate Continental Dynamics proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

Dated: March 2, 1998.

M. Rebecca Winkler,

Committee Management Officer. [FR Doc. 98–5748 Filed 3–4–98; 8:45 am] BILLING CODE 7555–01–M

NATIONAL SCIENCE FOUNDATION

Special Emphasis Panel in Experimental and Integrative Activities; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92– 463, as amended), the National Science Foundation announces the following meeting.

Name: Special Emphasis Panel in Experimental and Integrative Activities (1193).

Date and Time: March 24, 1998; 8:30 am-5:00 pm.

Place: National Science Foundation, 4201 Wilson Boulevard, Room 360, Arlington, VA 22230

Type of Meeting: Closed.

Contact Person(s): Michael Foster, Program Director, CISE/EIA, Room 1160, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. Telephone: (703) 306–1980.

Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.

Agenda: To review and evaluate CISE Advanced Resources for Experiments (CARE) proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.
